

Aeo Paquette

Finalist

Professional **Magic**® player Aeo Paquette played the deck that defined the metagame at the 2004 World Championships: "Affinity." Against a field full of decks designed to beat Affinity, this nineteen-year-old Canadian piloted his fast beatdown deck to a 5-1 record during the Standard portion of the tournament. Paquette credits his friend Jeff Cunningham for helping him design an Affinity deck that could compete so well against the field.
