Brian Kibler

(Eleventh Place)

Pro Tour™ veteran Brian Kibler piloted his green-white-red "Red Zone 2K2" deck to an impressive finish at this year's Worlds. This deck quickly tried to put its many creatures into the "red zone," the attacking zone on the playmats used on the Pro Tour circuit. The twenty-one–year-old Kibler attends Emory University in Atlanta, Georgia, and is part of the "Mini Colony" playtest group that designed the Red Zone 2K2 deck.
